WELLHEAD CLEANING TOOL

DESCRIPTION

The Seadraulics Wellhead Cleaning tool is designed for cleaning wellhead sealing areas using a standard hydraulic work class ROV.

The tool's lightweight and simplistic design makes it quick to interface and allows it to be deployed by most ROVs. Interface to ROV is by way of 2 hydraulic hoses from the hydraulic motor.

TECHNICAL SPECIFICATIONS

Dimensions (tool):	560 mm H x 750 mm diameter
Dimensions (shipping box):	94 x 64 x 38 cm ³ ; 54 kg
Hydraulic motor:	Georler 80
Max. pressure:	3000 psi
Max. flow:	20 lpm
Fluids:	Tellus 22/32 or equivalent
Hydraulic interface:	Size 6 JIC
Gasket seal face:	18-3/4: H4 Connector or similar
Weight:	22 kg
