

CLASS 6 TORQUE TOOL

DESCRIPTION

The Torque tool is designed to be operated by WROV or as a stand alone tool. It has a multi interface setup in order to meet all referenced standards. Base unit is set up with interface (nose) API 17H, ISO 13628-8 Class 6 adapter. The Torque tool display gives full control on torque and turns, allowing the operator to set correct torque and turns to avoid overload of the object in operation.

Torque tool is calibrated at delivery.

FEATURES

- Conform to ISO 13628-8 (API 17H) Standards
- Max Torque 13,558 Nm
- Dual Sensor Electronic Turns Counter Subsea Display
- Supplied in offshore suitable transit case.
